## Independent Immigration Consultant Program

**ALAN L. KLIFF**  
**Director**

Who are we? We are an immigration consulting company. We have **15 years of experience** handling all types of immigration and naturalization cases. We are not lawyers; we are specialists who handle only immigration and related matters. Our expertise lies in the fact that over the years we have handled all types of immigration cases with a **very high success rate**. Although ethically and by law, we cannot guarantee the outcome of any case, our rate of success is extremely high. In fact, we chose the name "America's Key" because our clients have thanked us for opening America's door for them!

Our company is **BONDED** as required by the **Secretary of State**. Not every immigration consultant is bonded. We are a member of the **BETTER BUSINESS BUREAU**. A copy of our Better Business reliability report is included in this booklet.

AK Immigration Consultants receives many testimonials from previous clients who recommend our services. Here are just a few of the comments from people that we have helped.

*"Thank you so much to AK consultants. Without your precious help I wouldn't have made it to this beautiful country called America. Your knowledge of the immigration twists and subtleties made the difference. Take care and God bless you"*

*Bahram ALIASSA, M.D.*

*Alain, I'd just like to thank you for the friendly and professional help you gave me and my family. From the initial visa applications, and through the confusing green card process, you stayed calm and reassuring for us. While we were still living in Australia, it felt great to have someone representing us in the USA and you certainly made it so straightforward for us. Without your support as well as expertise, it would have been very difficult. I especially appreciated the way you helped mediate with potential sponsors and have kept a personal interest in our progress even after our residency. I wish you well, and heartily recommend your office to anyone considering immigration or temporary visas. They will not be sorry.*

*David Searson*

*"We have known Mr. Kliff for more than 2 years since he started to help us with filing the labor certification. We found that Mr. Kliff is very knowledgeable about the immigration law. Because of his knowledge about the law, he could answer all our questions, resolve our concerns, and thus help to reduce our anxiety during the filing process. He is the one we can trust. He is also very diligent and effective. Because of his good work, we have referred some of our friends to him and our friends were very satisfied with his service. So, there is no doubt that we will recommend Mr. Kliff again for someone who need immigration service."*

The door is open for you to **start your own business!** And, why not? Let this be the start of an exciting personal and professional journey. There is nothing more satisfying than running your own business. There are many reasons why you should consider owning your own IMMIGRATION CONSULTING BUSINESS.

The flow of people into the country has continued at a significant pace despite an economic slowdown, which traditionally discourages migration, and despite restrictions on immigration and more stringent security in the wake of September 11."

**THE RIGHT BUSINESS AT THE RIGHT TIME!**

## HAVE YOU BEEN THINKING OF STARTING A BUSINESS?

When you consider what type of business you should start, many people look to a franchise opportunity. Here are a few issues to consider:

### FRANCHISE COST

In exchange for obtaining the right to use the franchisor's name and its assistance, you may pay an initial franchise fee. This initial fee may be non-refundable and may cost thousands to several hundred thousand dollars. You may also incur significant costs to rent, build, equip an outlet and purchase initial inventory. To start some franchises, ***you already have to be wealthy!***

In addition to the \$29,500 franchise fee...there are fees to pay each month! Curves charges you a royalty fee 5% of gross each month and an advertising royalty of 3% of gross each month.

**We The People**

This franchise opportunity will cost you \$89,500 to get started

The investment range for is \$47,500 to \$75,000.

It will cost you \$25,000 just for the name, then you'll need a building!

**When you pay your initial investment for the Independent Immigration Consultant Business, that's it! Compared to the cost of most franchise opportunities, your investment is much less!**

A franchise may require you to pay continuing royalty payments. You may have to pay the franchisor royalties based on a percentage of your weekly or monthly gross income. *You often must pay royalties even if your outlet has not earned significant income during that time.* In addition, royalties usually are paid for the right to use the franchisor's name. So even if the franchisor fails to provide promised support services, you still may have to pay royalties for the duration of your franchise agreement.

**There's nothing more to pay in order to start your Independent Immigration Consultant Business. No on-going fees or hidden costs! Just think about having to pay a royalty to a franchise...even in the very beginning when you may not be making any money!**

**When you consider all of the expense and restrictions involved with a franchise, maybe what you are getting is just an expensive JOB!**

## IMMIGRATION IN THE UNITED STATES OF AMERICA

Would you like to start a business where you know there is a need for your services? When you start your own Independent Immigration Consulting business, you can be assured that there are thousands and thousands of people who need your services. Please take a look at this information provided from the US Department of Homeland Security, Office of Immigration Statistics:

### *United States Immigration Highlights for 2004:*

- Legal immigration in 2004 was **946,142** up by **240,315** over 2003!
- Immigrants now account for nearly **12%** of the nation's total population
- **California** was the destination for **4,048,410** non-immigrants in 2004
- **49,638** approvals were given to refugees in 2004, 24,309 more than 2003
- **537,151** people were naturalized in the United States in 2004
- **145,594** people were naturalized in California in 2004 (**28%** of the US total)
- **949,142** people became permanent resident in the US in 2004
- California had **252,920** new permanent residents in 2004

“The economy slowed, but **immigration didn't**”—Center for Immigration Studies

***Nearly 30.7 million documented  
Non-immigrants were admitted to the  
United States in 2004!***

You earn money by charging people a fee to prepare all the paperwork and documentation required to obtain Citizenship, Green Cards, and Visas. You are not limited to a specific territory; you can have clients locally, nationally, and internationally!

# A CAREER IN THE IMMIGRATION CONSULTING BUSINESS

Almost everyone has dreamed of owning a business. What is your reason for starting a business? Here are some answers we often hear:

- I want to be my own boss.
- I want to make the decisions.
- I want to choose when and how much I work.
- I want to be financially independent.
- I want my hard work to benefit me, rather than increasing profits for boss.

Starting a business **“from scratch”** rather than purchasing an expensive franchise provides the highest level of flexibility to a business owner. You are able to control every aspect of the development process and create a business tailored to your own specifications. There are risks associated with starting any business, but the rewards for this risk are generally *the highest* when starting an independent business rather than a franchise.

The next question you may ask is **“what type of business should I start?”** There are undoubtedly some particular products or services you are especially suited to provide. Life is too short to start a business that doesn't give you satisfaction and joy. If you like what you do, through good times and bad times, you will stick with it!

- Do you want to help people?
- Do you want a business where your clients actually need your services?
- Do you want a business where you are the specialist?
- Do you want to control how much money you make?
- Do you want a business where you get ongoing support?
- Do you want a business where there are no territory or boundary restrictions?
- Do you want a business where there are no ongoing royalty or franchise fees?

An **Immigration Consulting Business** can be started on a small scale with a small investment. Then, as the business grows and you gain experience, cash flow from your business can be used to expand your business. You probably won't need to hire other people because you can start by doing everything yourself. This “hands on” approach is a good way to learn everything about your business and the experience you gain also makes you better qualified to delegate work to others later on as your business grows and you need to hire someone.

You won't be on your own as you start your business, **AK Immigration Consultants** will be available to give you support as you begin to find clients and start new cases! This business opportunity is unique in that you receive “mentoring” from experienced people who have been doing immigration for a very long time and are highly skilled at what they do! With most businesses you are left on your own to figure it out for yourself! We want you to succeed and we will be available to give you advice and guidance. You are not alone, but **you** are always the boss of your own business. We are just there to give you the support you want, when you ask for it! Isn't it a good idea to know that you have someone to call upon if you need extra help?

## Independent Immigration Consultant Program

# COMPUTERIZED OR NOT?

As you probably imagine, as a successful independent Immigration Consultant, it will be necessary for you to gather information from your clients and complete documents that will be submitted to official immigration agencies. You may be wondering if you need to have sophisticated computer skills in order to succeed with your new business. The answer is that you will decide how you want to conduct your business.

Just about all of the forms that you will need to complete for your clients are available as regular paper documents that you can fill in with a pen. So you don't necessarily need to have a computer to start your successful Immigration Consulting Business. You will learn the skills that are taught in this Independent Immigration Consultant Training Program and work with your clients to gather all the pertinent information. You can then complete the forms manually without the use of a computer and then submit them.

Having said all of that, in today's information age, those who understand how to manage, process, and manipulate information efficiently have a certain advantage in the world of business. The fact is that you can do all of your paperwork faster if you utilize a computer! Even basic computer skills will allow you to maximize the efforts you put into your new business. The more efficiently you use your time, the more money you can make.

We will provide you with information and show you how to use comprehensive immigration software. You will have access to all the immigration forms you will ever need to use! It's fast and efficient! Obviously we do believe that you will benefit from "computerization". However, it is not an absolute requirement as you begin your business. You could begin by handling the paperwork manually and then decide to switch to a computerized system later. We will help you with whatever you decide to do. One of the advantages of this business opportunity is that you can keep your overhead low by working from home as you start out and keeping the investment in equipment at a minimum. We will discuss these options with you and give you our best advice; however, the final decision is left up to you. Remember, it is your business and you are the boss!
