TRAINING PROGRAM

Independent Immigration Consultant Program

THE POTENTIAL

America is a nation of immigrants. Of course, this is not news. The statistics presented here were obtained from the "2003 Yearbook of Immigration Statistics" and indicate the staggering volume of transactions handled by the USCIS*, the nation's official agency for immigration matters. (*United States Citizenship & Immigration Service).

In 2003 **705,827** legal immigrants came into this country to live, work, raise families and make this country their new home.

A total of **27.8 million** non-immigrants were admitted to the United States in 2003. These people came on a limited basis to visit friends and family, conduct business, work on a selected

authorized basis, or perhaps to attend school.

In 2003 there were **463,204** people already living in this country who became naturalized American citizens.

In 2003 the number of refugee arrivals into the United States increased to **28,306**.

The bottom line is that there are many people who need immigration services.

INCOME OPPORTUNITY

With each new immigrant, non-immigrant or naturalized citizen there is a need to prepare and submit paperwork to the immigration service.

Who takes care of all the paperwork?

The answer to this question can be **YOU!** You can own and operate your own professional independent immigration consulting company.

You help people achieve their immigration goals and you are paid for your services. You will be trained to

provide a full range of services such as Visas, Green Cards, Work Permits and Citizenship documentation. The service industry

for honest, ethical, and professional people who can provide immigration services is exploding.

By all accounts, immigration into the United States will be increasing for many years to come. You can have a never ending client base where your clients come to you. Your income potential is not limited by outside forces. You will decide how much you want to earn.
