I have worked in the immigration field for over 25 years. During that time, I found there were some kinds of cases that I could not handle for my clients. I was very pleased to develop a business relationship with Alan at AK Immigration Consultants and refer those cases to him. This arrangement has worked very well over the past 5 years. He is knowledgeable and works successfully with my clients. I have never had anyone come back to me with any issues with the service they received. I would recommend his course.

I have known Alan for over 15 years when he was first trained in the immigration business by my very good friend and business partner. Even during the early years I could tell that Alan would do very well in the immigration business. He learned the concepts fast and never doubted that he would be successful. After the untimely death of my business partner, I chose to work with Alan and refer my immigration cases to him for handling. He absolutely knows what he is doing and pursues every avenue to get a successful outcome for my cases. He has an excellent track record. We have been working together for over 10 years. If you take a course with Alan, you will absolutely be prepared for success in this business!
